SUMMARY

Full-stack engineer with 5+ years of experience building and delivering scalable, user-focused products in React and JavaScript/TypeScript. Former educator passionate about edtech and mission-driven work. Skilled in owning features end-to-end, collaborating cross-functionally, and writing maintainable, high-quality code at startup speed.

EXPERIENCE

Software Engineer

03/2022 - Present

NomNomNow Inc. | nomnomnow.com

Nashville, TN (remote)

- Owned the migration from server-rendered Jinja templates to a modern React, TypeScript, and TailwindCSS architecture, enabling reusable, maintainable code.
- Delivered features end-to-end, from scoping and planning to deployment, balancing speed and quality in a fast-paced environment.
- Refactored and modernized legacy backend for the customer cancellation flow using Python, implementing model-based architecture to improve readability and maintainability.
- Led engineering teams of 2-4 developers, facilitating standups, milestone tracking, and ensuring alignment with product goals.

Web Designer & Developer

03/2019 - 08/2021

Shepherd Research Lab | shepherdresearchlab.org

Honolulu, HI

- Built and launched the lab's first website with WordPress and custom HTML/CSS, enabling new project collaborations and increased study participation.
- Owned full branding implementation for a 200+ attendee conference, including website design, print materials, and attendee welcome swag, strengthening event visibility and engagement.

SELECTED PROJECTS

Animal Crossing API 2.0 | Personal Project | [Live Link](#) | [Code Repo](#)

Built and deployed a RESTful API with Next.js, TypeScript, and Netlify serverless functions, using Netlify Blobs for persistence.

100Devs | Mentorship & Open Source Project

Mentored early-career engineers and contributed to large-scale open-source projects.

- **Together** | [Issue Discussion](#) | [Pull Request](#) | Paved the way for using Storybook throughout the codebase with documentation for guiding new developers on how to create stories.

SKILLS

Languages: HTML, CSS, JavaScript, TypeScript, Python, SQL (BigQuery)

Tools: React, Next.js, TailwindCSS, Node.js, Express, MongoDB, Netlify (CI/CD, Serverless Functions)

EDUCATION

B.S. Human Centered Design & Engineering | University of Washington, Seattle, WA

2015
