EXPERIENCE

Fullstack Software Engineer

03/2022 - Present

NomNomNow Inc. | nomnomnow.com

Nashville, TN (remote)

- **Website Redesign:** Led the migration from server-rendered Jinja templates to a modern React, TypeScript, and Tailwind frontend with a team of 4 developers to continue with the brand's premiumization. Conducted technical scoping and estimation to inform leadership's strategic decisions, which helped ensure the project launched on time.
- **Account Reskin:** Delivered a complex account reskin to maintain the customer premium experience after signup using React, TypeScript, and Tailwind. All core functionality launched on time, despite team transitions and a tight timeline.
- **Customer Self-Cancellation Flow:** Refactored legacy backend code in Python and implemented redesigned frontend code in React and JavaScript. Built new backend data models for the modernized unsubscribe API.

Web Designer & Developer

03/2019 - 08/2021

Shepherd Research Lab | shepherdresearchlab.org

Honolulu, HI

- **First Website Launch:** Launched the lab's first website in WordPress and custom HTML and CSS, generating new collaboration inquiries and interest in research trials.
- **IBDW 2019:** Owned full branding implementation for a 200+ attendee conference, including website design, print materials, and attendee welcome swag, strengthening event visibility and engagement.

OTHER WORK

Nook Radio | A minimalistic audio player that plays Animal Crossing background music based on the viewer's current time and weather.

Built with: Next.js, TypeScript, TailwindCSS, Netlify

ACNH API 2.0 | A reboot for a RESTful API serving data about furniture, critters, fossils, art, music, and villagers from Animal Crossing: New Horizons.

Built with: Next.js, TypeScript, TailwindCSS, Netlify, Netlify Blobs

100Devs | Mentoring early-career software engineers and contributing to open source community projects.

- **Together** | Paved the way for using Storybook throughout the codebase with documentation for guiding new developers on how to create stories.
- **Discord** | Answering questions related to code- and career-related questions, and offering tips and guidance during the job search process.

SKILLS

Languages: HTML, CSS, JavaScript, TypeScript, Python

Tools: React, Tailwind, Node.js, Express, MongoDB, Netlify

EDUCATION

B.S. Human Centered Design & Engineering | University of Washington, Seattle, WA

2015
